

INSTALLAZIONE FIREWALL CLIENT ISA 2004

Per prima cosa dentro pannello ci controllo \rightarrow aggiungi/rimuovi programmi bisogna rimuovere il vecchio firewall client ISA 2000

Dopodichè si può iniziare l'installazione del nuovo client facendo doppio click sull'icona setup.exe come da figura

Dopodichè si clicca su **next**:

🛃 Microsoft Firewall Clier	ıt - Install Wizard 🛛 🛛 🔀	
Microsoft Internet Security & Acceleration Server 2004	Welcome to the Install Wizard for Microsoft Firewall Client The Install Wizard will install Microsoft Firewall Client on your computer. To continue, click Next.	
	< Back Next > Cancel	
	Fig. 2	

Si lascia di default il percorso proposto come in figura

🔀 Microsoft Firewall Client - Install Wizard	×
Destination Folder Click Next to install to this folder, or click Change to install to a different folder.	
Install Microsoft Firewall Client to: C:\Program Files\Microsoft Firewall Client 2004\ Change	
Space < Back Next > Cancel	
Fig. 3	

2

A questo punto come in figura specifichiamo l'indirizzo IP del firewall ISA:

🖟 Microsoft Firewall Client - Install Wizard 🛛 🛛 🔀	
ISA Server Computer Selection Specify the ISA Server computer to which Firewall Client will connect.	
You can specify the ISA Server computer that Firewall Client will connect to, or Firewall Client can detect the appropriate ISA Server computer.	
 Connect to this ISA Server computer: Type the ISA Server host name or IP address: 	
10.36.136.41 Example: isa microsoft.com or 157 54 0 1	
Automatically detect the appropriate ISA Server computer	
Note: These settings may be changed later using the Firewall Client management application.	
< Back Next > Cancel	
Fig. 4 xt e poi Install:	

Facciamo Next e poi Install:

	🙀 Microsoft Firewall Client - Install Wizard	×	
	Ready to Install the Program		
	The wizard is ready to begin installation.		
	Click Install to begin the installation.		
	If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.		
1			
	< Back Install Cancel		

Fig. 5

Terminata l'installazione clicchiamo su Finish.

Se l'installazione è andata a buon fine in basso a destra vedremo l'icona del firewall client come in figura 7:
